## Mount Pearl Launches Redesigned Website

**MOUNT PEARL, NL** – The City of Mount Pearl has launched a redesign of its website, [www.mountpearl.ca](http://www.mountpearl.ca). Key features include a clean, modern design, improved search functionality, and mobile responsiveness.

“Our website has been redesigned to give our residents, businesses and visitors a better online experience. It provides an engaging view of news and events happening in our City and offers users a streamlined experience to easily find all of the information they are looking for,” says Mayor Simms.

A new feature of the website is an e-updates section where residents can register their e-mails to receive timely news as it relates to facility closures, public notices, garbage schedule changes and more.

“Our focus was ‘keep it simple’. This redesign allows us to effectively communicate with our audience through a clutter-free, easy-to-use website,” continues Mayor Simms.
