

Speed Bump Policy

1.0 Policy Statement

The City of Mount Pearl uses progressive traffic calming measures but does not install vertical deflection (speed bumps) systems on City streets.

2.0 Background

The City of Mount Pearl has received complaints from citizens concerning speeding and have requested that the City consider all possible ways to resolve the issue. Citizens have requested that the City implement “speed bumps” or other physical barriers aimed at reducing traffic speeds.

A detail reviewed of the pros and cons of vertical deflection use was conducted and the City has concluded that vertical deflections not be installed on City of Mount Pearl streets.

3.0 Approvals

Steve Kent, Chief Administrative Officer
