PERMIT APPROVAL CONDITIONS

Permit No.: _____

File Reference No.: _____

Permit Condition Details:

NOTE: Permission is hereby given to perform the above work ONLY. It is understood that the following conditions will be adhered to:

- Applicable building, subdivision and development permits must be obtained prior to making application for a street excavation permit.
- This permit is valid for 30 days from the date of signing.
- In general, street excavation permits will not be issued between the periods of November 1st and May 1st. Where the applicant requests exceptions, justifications are to be submitted to the Manager of Engineering Services. In situations where the Manager of Engineering Services is of the opinion an exception is in the best interest of the City, an exemption may be granted.
- A security deposit, (see below) must be paid in full prior to any work being performed and is refundable one year after written request is received, site inspected and approved by the Manager of Engineering Services or representative. These conditions must be met before refund is issued.
 - \$10,000 (refundable) - Old Placentia Road, Commonwealth Avenue, Topsail Road and other Arterial roads
 - \$7,500 (refundable) - Richard Nolan Drive, Smallwood Drive, Ruth Avenue, Sagona Avenue
 - \$5,000 (refundable) - Residential streets and collector streets
 - \$500 (non-refundable) - Assessment fee for new waterline, sanitary or storm connection or upgrade
- Traffic control procedures shall meet the requirements of the Department of Transportation and Infrastructure "Traffic Control Manual for Roadway Operations", as per Newfoundland & Labrador Occupational Health and Safety Regulations. Traffic control plan must be submitted and approved as part of the street excavation permit.
- Where deemed necessary by Engineering Services, the Permit Holder will be responsible for the cost associated with necessary public notifications.
- Where applicable, Municipal Services connection fee, (please refer to *Schedule of Rates and Fees*), is to be paid prior to issuance of permit. Where connection to water main is performed by City forces there is no additional charge for supply of tapping equipment and City labor to perform water main connection. All other equipment, materials and labor to be supplied by applicant. Upon receipt of permit, the Public Works UTM Foreman is to be contacted 48 hours in advance of request for work to be performed. Work is to be performed within regular working hours unless specifically requested or approved by the City. The contractor will absorb added labor costs associated with work completed on statutory holidays and weekends.

8. For connections greater than 50 mm, tapping sleeve and valve are to be pressure tested with water, independently. Contact Engineering Services for requirements.
9. Contractor must ensure that city representatives are present during any connections to city infrastructure. Water line greater than 50 mm must be swabbed, chlorinated and pressure tested. Pressure testing and chlorination test report must be provided to the city prior to final connection. Isolation zone (air gap) must be maintained during testing procedures to minimize (eliminate) potential contamination during construction activities.
10. All signs, flag persons and traffic control devices are to be provided in accordance with *Occupational Health and Safety Regulations*, the *Traffic Control Manual for Roadway Operations* and the *City's Engineering Services Regulations*. Adequate dust control must be maintained.
11. An approved dump site, if required, must be authorized by the Manager of Engineering Services.
12. The street cut is to be paved within 48 hours of excavation. Owner is responsible for maintenance for a period of twelve (12) months after paving. Surface asphalt course shall be installed after twelve months and shall be milled with a 0.3 m overlap to ensure smooth transition.
13. All government regulations and those of other regulatory agencies must be adhered to.
14. All work to be in accordance with the City of Mount Pearl Regulations and By-laws.
15. The Contractor shall, prior to commencement of work, provide proof of the following items:
Insurance: The Contractor shall, obtain and maintain during the term of this Permit, in a form and with an insurance company, satisfactory to the City of Mount Pearl, policies of:
 - a. Commercial General Liability insurance with a limit of not less than Five Million Dollars (\$5,000,000) for any one loss of occurrence and in the aggregate with respect to bodily injury, personal injury and property damage, including loss of use thereof, which policy shall by its wording or by endorsement:
 - i. Include the City of Mount Pearl, its officers, directors, employees, agents and trustees as an additional insured with respect to the obligations assumed by the permit holder;
 - ii. Provide that, in relation to the interests of each additional insured, the Insurance shall not be invalidated by an action or inaction any other person other than the respective additional insured;
 - iii. Include a "cross liability" clause which shall have the effect of insuring each entity named in the policy as an insured in the same manner and to the same extent as if a separate policy had been issued to each;
 - iv. Extend to cover blanket contractual liability, including the insurable liabilities assumed by the permit holder;
 - v. Extend to cover non-owned auto liability coverage; and
 - vi. Not exclude any existing property of the City of Mount Pearl, but shall treat same as "third party property".
 - b. Automobile public liability and property damage insurance in an amount not less than Two Million Dollars (\$2,000,000), all-inclusive covering the ownership, use and operation of any motor vehicles and trailers which are owned, leased or controlled by the Vendor and used in connection with this Contract.
16. The contractor **must** use 4" minus backfill material, and provide acceptable compactive effort (*i.e. reversible plate tamper*) during placement to ensure no settlement. Backfill material shall be placed in lifts no greater than 0.5 m.
17. The contractor **must** use Mueller tapping sleeve and valve.

To arrange for inspections prior to and after completion of the above work please contact Planning Engineering and Development City Inspector 748-1000.
