1.0 BACKGROUND

In 2021, the City of Mount Pearl (the “City”) developed a 25-to-30-year plan to renew the downtown core of Mount Pearl.

The long-term vision outlines strategies for public and private investment which will continue to encourage the city centre to grow and thrive. The *Find Your Centre – City Centre Renewal Plan* (<http://findyourcentre.ca>) was developed based on community engagement and input from many stakeholders, both public and private.

The conceptual plan puts people first, expressing a bold and exciting vision for a variety of mixed-use environments rooted in the “three Rs” – retail, recreation, and relaxation. It will inform sound decision-making for future development to ensure the city centre becomes, and remains, a distinct core that contributes to Mount Pearl’s rich quality of life, a strong sense of place, and a prosperous economy.

As a recommendation from the Find Your Centre Plan and the Donovans Reimagination Plan, the city received extensive feedback from residents, business owners, and stakeholders to provide more options for amenities such as food vendors, restaurants, and beverage offerings around the city. The purpose of this recommendation is to create destinations throughout our city, attract tourists and residents, and create more opportunities for entrepreneurs and provide more offerings to our community. This will encourage business growth and create a more desirable place to live, work, and invest for years to come.

As the city has received numerous inquiries from food vendors this season, there is a demand for designated operating space during the spring/summer months. Designated locations will spark business growth, resident attraction and destination development, aligning with our strategic priorities.

2.0 PROJECT DESCRIPTION

As the city has received numerous inquiries from food vendors this season, there is a demand for designated operating space during the spring/summer months. Designated locations will spark business growth, resident attraction and destination development, aligning with strategic priorities.

The city also conducted a survey to gauge interest from residents on the proposed locations throughout the city. The survey provided tremendous support for the initiative and the locations brought forward.

The city assessed each location based on feasibility for Service NL requirements and power capabilities and the following 2 locations met all the requirements:

1. Power’s Pond near the boathouse
2. Summit Centre Parking lot
