INTEGRATED TRANSPORTATION PLAN: A SMARTER WAY TO MOVE

In conjunction with the Municipal Plan review, Mount Pearl developed its first Integrated Transportation Plan—a strategy to improve how we get around by offering real choices beyond cars.

The plan focuses on four key areas: roads, active transportation, transit, and parking. It aims to make travel safer, more connected, and accessible—whether you're walking, biking, busing, or driving.

As part of this work, we launched a public transit survey in November, gathering 365 responses. Your feedback is helping us understand how residents use transit and what improvements matter most.

This plan is about more than transportation—it's about building a healthier, more inclusive, and sustainable Mount Pearl for the future. Stay tuned for updates in early 2026, and learn more at heymountpearl.ca

WE'RE UPDATING THE T'RAILWAY & COMMONWEALTH PEDESTRIAN CROSSING!

Trans Canada Trail is pitching in to help make this crossing safer and more accessible for everyone.

Coming in 2026:

Stay tuned for updates at heymountpearl.ca!

Together, we're building a safer, more connected community.

Winter Tips

Winter in Mount Pearl is a beautiful time, and with the right information and preparation, you can make the most of it while staying safe. Whether you're tracking plows, learning about regulations, or enjoying the snowy trails, this guide has you covered. Stay informed, stay safe, and embrace the magic of a Mount Pearl winter!

SNOW CLEARING REGULATIONS

Mount Pearl residents are encouraged to be mindful of snow-clearing regulations to ensure a smooth snow season for all, including:

- **No Street Parking:** From December 1 to March 31 each year, no vehicles are allowed to be parked on any street within the city between 1 AM and 8 AM.
- **During a Storm:** While the snow or ice is falling and for 12 hours afterward, street parking is a no-go.
- **Shovelling Snow:** It's essential to keep driveways and parking lots clear, but never shovel or plow snow onto the streets, carriage ways, or sidewalks within the city.

These guidelines are in place to ensure our plows can do their work safely and efficiently. Violators may face fines for non-compliance, so make sure to review the official snow clearing regulations to avoid any issues.

SNOW PLOW TRACKER

Ever wonder when the plow will clear your street? Mount Pearl's Snow Plow Tracker comes to the rescue! This interactive map lets you follow city vehicles as they work to keep the roads safe and clear. You can even see where they've been in the past 2, 4, 12, and 24 hours.

It's like having a personal snow clearing GPS!

SAFEY SNOWPLOW'S SAFETY TIPS

Safey Snowplow says the best place to build snowmen is in your backyard! Here are some more reminders to stay safe this winter:

- Stay away from roads
- Snowplows are *huge* and take longer to stop, so give them plenty of space
- Wear bright clothes so drivers can see you easily
- If you get cold or wet, take a break inside to warm up
- Slide one at a time and always sit or kneel, facing forward
- Play in the snow with a friend and keep an eye on each other

Traffic Calming

SAFER STREETS START HERE

The City of Mount Pearl recently launched its Traffic Calming Policy to create safer, more livable neighborhoods. Since its introduction, we've received over 120 community requests and completed our first installation on Brant Drive.

More improvements are coming—installations on Lasalle Drive, Pollux Drive, and Bannister Street begin in spring 2026, with additional projects planned later in the year.

Traffic calming incorporates proven design features such as speed humps, raised crosswalks, curb extensions, lane narrowing, and radar feedback signs to encourage safer driving. All projects follow best practices from the Transportation Association of Canada and the Institute of Transportation Engineers.
